**Thank you for attending tonight's performances!**  
**This is a formal event for the students and we appreciate your careful consideration and attention to the concert etiquette described below.**

## ***YOU Are Part of the Concert!***

The audience members as well as the musicians are participants in every concert. When you participate in listening to the music, you will be taking an important part by sharing this experience with others in the audience and with the musicians on stage. Formal concerts are much different from rock concerts or sporting events, and require all participants to know specific concert manners.

To make the concert enjoyable for everyone,  
here are some tips to remember:

- **Enter the auditorium quietly.** Once you have been seated, be alert to activity on the stage as the musicians take their place for the concert. Prior to the concert, the lights will be lowered and the ensemble will tune. It is expected that the audience remain silent during this time.
- **When the conductor enters, it is customary to applaud politely.** Whistling, yelling, or screaming is not appropriate at any time before, during, or after a concert.
- **Never stand or move around while music is being performed.** Movement distracts listeners around you as well as the performers. If you must leave for any reason, wait until a piece is finished, when the audience is applauding. Return to your seat only between numbers.

- **Talking while the music is being performed is impolite.** Listeners and performers are also distracted by sounds from programs, candy wrappers, jewelry and other objects. Remain still, and be thoughtful of others by talking or making sounds only between works.
- **If young children become restless and disrupt others' ability to listen, please take relocate to the lobby; the video screen in lobby will allow for continued enjoyment of the performance.**
- **Wearing hats or caps during a concert is impolite.**
- **Neither food nor drink are permitted into the auditorium.**
- **If you must cough or sneeze while the music is being performed, always try to muffle the sound with a tissue or handkerchief, or into your arm.** Wait until the piece is finished if possible.
- **Watch the conductor when the music ends to decide whether or not to applaud.** Some musical works have several parts, or movements, and the audience will applaud only after all movements have been performed.
- **Due to copyright & music licensing laws, we ask for no video or audio recordings of the performances be made.**
